EGYPT & JORDAN INSIDER TIPS

- **EGYPT** | Home to seven UNESCO World heritage sites, be sure to visit Egypt's breathtaking ancient archaeological wonders from Abu Mena, Abu Simbel, Ancient Thebes and Historic Cairo, to the fossils of Wadi Al-Hitan, and Memphis and its Necropolis.
- **EGYPT** | The Nile River, the world's longest river, streams through Egypt and is the country's most vital waterway. Originating near the equator flowing northward through Africa to the Mediterranean Sea, most of Egypt's population lives along its rich river valley.
- **JORDAN** | Barren of fish, plants and living organisms due to the level of salts, mud and minerals, and is the lowest the lowest point on earth, the Dead Sea in Jordan is considered a natural spa for its healing properties and so hypersaline, your body floats on the surface.
- **JORDAN** | Celebrated as the national dish, traditional Mansaf is made with lamb, spices and fermented dried yogurt sauce called Jameed, most often served on a Bedouin-style platter with rice or bulgur.
